

2022 Q3 Retail Price Guide

Valued Partners,

The purpose of this guide is to provide preliminary pricing of our most popular models in common wall sizes and pitches. This should be used for rough estimation only and not for final proposals.

Pricing reflects MSRP. We prefer you obtain a quote for every project from your local Absen Independent Manufacturer Representative, or through Absen Customer support. Gather as much information about the project as possible for your quote request.

1. Indoor or Outdoor?
2. Permanent installation or Portable?
3. Install Method (wall, hanging or floor standing)
4. Desired size (you may include whatever dimensions you have)
5. Desired aspect ratio
6. Closest viewing distance or note if you have a specific pitch.
7. Dimensions of the recess within a wall, if existing

Product Families

Indoor Solutions:

- Acclaim Plus: SMD chip. Wall mount, flown or ground supported. Trim kit excluded*. 1.2-3.9 pitches.
- Icon: SMD chip. Wall mount, flow or placed on Absen provided floor stand. Trim kit included. 1.2-1.9 pitches
- NX: SMD chip. Wall mount, flown or ground supported. Trim kit included. 1.5-3.7 pitches.
- KLI: SMD chip. Wall mount or flown. Trim kit included. 1.2-2.5 pitches.
- N Plus: SMD chip. Value engineered. Wall mount only. 1.9-5.14 pitches
- Polaris: SMD chip. R&S product, permanent and mobile uses, flown or ground supported, trim kit excluded*, 2.9-3.9 mm pitches
- HC Series: IMD chip. Wall mount only. Trim kit excluded*, 9 pitch.
- CL Series: Flip/ RGB coated chip. Wall mount only. Trim kit excluded*. .9 or 1.2 pitch.

* Trim kits on these models are suggested for a complete finish, sourced via third party like RCI Custom or Chief.

- Indoor solutions include mounting hardware.
- Wall must be completely flush to ensure proper alignment.

Outdoor Solutions:

- A series: SMD chip, permanent installation, full IP65 front and rear, wall mount ONLY
- Polaris: SMD chip, R&S product, permanent or mobile, IP65front/IP55rear/ flown or ground supported ONLY
 - Absen does not provide wall mounts for outdoor models, source through a third party such as Adaptive Technologies, or local metal fabricator.

Acclaim Plus Mounting Options:

Wall Mount: Absen wall mounts or third party that offer Z-Axis

Flown: Absen will provide hanging bars

Floor Standing: Third party options allow for R&S type ground supported, ladder system, or custom

Absen - Acclaim Pro & Plus Series Pricing

Difference between Plus and Pro:

Acclaim Plus: Standard **SMD** (Surface Mounted Device) technology.

Acclaim Pro: It applies 4-in1-pixel, **IMD** (Integrated Matrix Device) technology which is 350% more durable than a traditional LED. It offers higher contrast ratio, wider viewing angle and perfect flatness.

Special Notes:

Priced August 2022 by Absen

For quote requests please email Carina Wang at carina.wang@usabsen.com or your [local Absen Rep.](#)

Includes

LED Modules, mounting hardware of choice, cables, sending cards (Novastar processors), power supplies, vacuum service tool, and 6% total spares excluding cabinets. Onsite Commissioning: around \$5,000 average 3 days depending on quantity of walls and days. Two-year standard warranty, extended available.

Excludes

Freight - Absen will provide shipping costs with every quote.

Shipping from China: if in stock - sea shipment 7-9 weeks/ air shipment 2 weeks.

Shipping from US Distributor: 2 weeks

Onsite Commissioning Assistance

Absen provides one technician to assist Integrator's team on proper assembly, cabling, alignment, and processor configuration.

Mounts

Can be wall-mounted, flown or ground-supported. For wall mounts, it is suggested to use third party that has Z-Axis Adjustment for 1.9 mm or below pitch, when you cannot be sure the wall will be completely flat .

Trim Kit

A trim kit is not included with the Acclaim model but third party options from RCI Custom or Chief are available.

HC Series Pricing Matrix

Special Notes:

Priced August 2022 by Absen

For quote requests please email Carina Wang at carina.wang@usabsen.com or your [local Absen Rep.](#)

Includes

LED cabinets and modules, wall mounts unless using third party mount, cables, sending cards(Novastar processors), power supplies, vacuum service tool, and 6% spares excluding cabinets. Two year standard warranty, extended available. Commissioning: around \$5,000 dealer cost - average 3 days depending on quantity of walls and complexity.

Excludes

Tariffs- 0% through 2022 unless otherwise noted.

Extended Warranty: standard warranty 2 years/ extended available at additional cost.

Freight - Absen will provide shipping costs with every quote.

Shipping from China: if in stock - sea shipment 8-10 weeks/ air shipment 2 weeks.

Shipping from Absen Orlando or US Distributor: 1-2 weeks

Mounts

HC Series can be wall mounted, flown or floor standing. For wall mounts, it is suggested to use a third party that has Z-Axis adjustment for 1.9 mm pitch or below, when you cannot be sure the physical wall will be flat.

Trim Kit

A trim kit is not included with the HC model but third party options from RCI Custom or Chief are available. Also if using a third party mount provider request to have trim included.

Outdoor - A Series Pricing Matrix

Special Notes:

Priced July 2022 by Absen

For quote requests please email Carina Wang at carina.wang@usabsen.com or your [local Absen Rep.](#)

Includes

LED modules and cabinets, mounting hardware of choice, cables, sending cards (Novastar processors), power supplies, service tool, and 6% spares excluding cabinets. Two year standard warranty, extended available. Onsite Commissioning: around \$5,000 average of 3 days depending on quantity of walls and days.

Excludes

Tariffs- 0% through 2022 unless otherwise noted.

Extended Warranty: standard warranty 2 years/ extended available at additional cost.

Freight - Absen will provide shipping costs with every quote.

Shipping from China: if in stock - sea shipment 8-10 weeks/ air shipment 2 weeks.

Shipping from Absen Orlando or US Distributor: 1-2 weeks

Mounts

A Series is wall mount only. Absen does not provide outdoor rated wall mounts, suggested to use third party such as Adaptive Technologies.

Trim Kit

If a trim kit is needed, request this of your mount provider as it is typically offered by them and would match the finish of the mount. Sometimes this must be requested specifically as " shrouding, cladding, or trim"
