Consumer Alert	Most users do not need a license to operate a wireless microphone system. Nevertheless, operating a microphone system without a license is subject to certain restrictions: the system may not cause harmful interference; it must operate at a low power level (not in excess of 50 milliwatts); and it has no protection from interference received from any other device. Purchasers should also be aware that the FCC is currently evaluating use of wireless microphone systems, and these rules are subject to change. For more information, call the FCC at 1-888-CAII-FCC (TTY: 1888TELLFCC) or visit the FCC's wireless microphone website at: www.fcc.gov/cgb/wirelessmicrophones

Transmitters and receivers ordered above 608 MHz are considered special order items and are only for use outside of the U.S.
